jury undertaking.

MANHATTAN, Sept. 27.—The enormous ore body of the Big Four, opened a week ago in an east extension of the main ledge on the 200-foot level, is as large as ever, with 36 feet farther developing. The width still is 50 feet and the average values hold up to \$20 a ton, as announced by Superintendent E. C. Maguire at the time. It is one of the most remarkable showings in the history of Manhattan.

During the week the raise from the 500 to the 400-foot level was completed and a more rigid sampling of the better looking material was had, with gratifying results. One running \$56 a ton was found in the raise and there is a lot of it.

The raise was started farther south than it should have been, according to the present opinion of the superintendent. It meandered somewhat in going up but came out at the spot expected and all around was proved to be a very satisfactory undertaking.

The following should prove of interest to the sportsmen of Tonopah who are in the habit of enjoying annual hunting trips to points outside this county. In the past years the law has been interpreted so as to prevent the shipping of game by railroad, but the following decision as taken from the Gazette completely changes the previous understanding.

Hunters of this section will be greatly interested in a decision of the attorney general of the state which has just been received by District Attorney Woodburn and which touches upon the question of shipping game. The district attorney, following a number of requests for a ruling, gave an opinion that the shipping of wild game from one point to another point within the state was permissible and that transportation companies would not be violating the laws in this respect. The written opinion of the attorney general of the state upholds the local attorney's decision, pointing out it is only unlawful for transporters to transport wild game from points within the state of Nevada to points without the commonwealth. Following the receipt of the written opinion, District Attorney Woodburn notified the various transportation companies with offices in Reno and hereafter the hunters who want to ship their game here instead of carrying it in may do so without fear of unpleasant conflict with the authorities.

FOREIGN SCIENTISTS ARRIVE AT DENVER

DENVER, Sept. 26.—The party of 20 foreign scientists now touring the United States, arrived in Denver today to inspect the chemical smelting plants. The scientists were delegates to the International Congress of Applied Chemistry held in Washington recently.

The day's program included pleasure trips about the city and luncheon at noon and dinner tonight as guests of the commercial and scientific organizations.

ATTENTION DEMOCRATS

All members of the Democratic county central committee are notified that a meeting will be held at headquarters opposite Elks' hall on Friday evening September 28, at 7:30 p.m. As business of importance is to be transacted, every member is earnestly requested to attend either in person or by proxy. All democratic county candidates are also requested to attend.

H. B. COORE, Chairman.

F. D. VAN PERSSEY, Secretary.

of this number two are women. In no case is the condition of the patient critical and complete recoveries are looked for in every instance.

HOMESEEKERS' RATES

CHICAGO, Sept. 26.—Homeseekers' rates to Pacific coast points will not be discontinued next year as was suggested recently by two of the leading western railroads. A referendum vote of the interested railroads has decided in favor of a continuance during the year 1913 of the rates now in effect, which are on a basis of \$65 for the round trip from Chicago, \$62.50 from St. Louis and \$55 from Missouri river points.

If a particular store can save you a dollar on some particular purchase you need to make, the ad in the Bonanza, which tells you where, and why, and when, has a cash value to you—don't you think?

Each and Every One a Speed Shell

The speed that breaks your targets nearer the trap. That's why Remington-UMC Steel Lined Shells have won 13 out of the 15 Handicap held in the last three years.

We send you data on our "double" with a choice of shot sizes—over 50,000 dealers to handle them.

The Remington-UMC Steel Lined Shells are the finest they are speed shot. They know the exact compression.

The powder circuit in Remington-UMC shells is gripped in place. This holds the load in the mark quickest. It insures speed—the same speed in every shell.

The steel lining is moisture proof—no dampness can get through.

Fire proof—no powder can get out.

Waste proof—no energy is lost.

Shoot Remington-UMC Arrow and Nitro Club Steel Lined Rapid Factory loaded shells for Speed plus Pattern in any make of shotgun.
